DOCKET NO. \_\_\_\_\_

COMMISSION STAFF'S PETITION TO	§	PUBLIC UTILITY COMMISSION
SET 2024 WHOLESALE	§	
TRANSMISSION SERVICE CHARGES	§	OF TEXAS
FOR THE ELECTRIC RELIABILITY	§	
COUNCIL OF TEXAS	§	

**PETITION TO SET ERCOT WHOLESALE TRANSMISSION  
SERVICE CHARGES FOR 2024**

Staff (Staff) of the Public Utility Commission of Texas (Commission), representing the public interest, files this Petition to Set Wholesale Transmission Service Charges for the Electric Reliability Council of Texas (ERCOT). Each year, the Commission sets wholesale transmission service charges for ERCOT. ERCOT is required under 16 Tex. Admin. Code (TAC) § 25.192(d) to file the current year's four coincident peak (4CP) demand for each distribution service provider by December 1. This information is used to establish the transmission service charges for the subsequent year. The Commission has jurisdiction over this application pursuant to Chapter 35, Subchapter A, of the Public Utility Regulatory Act.<sup>1</sup>

**I. NOTICE AND INTERVENTION DEADLINE**

Commission Staff will serve a copy of this application on the wholesale transmission service providers and customers in ERCOT, as well as on ERCOT, using the attached service list (Attachment B). This service list is substantively similar to the service list for Docket No. 54507, the previous wholesale transmission service charge docket.<sup>2</sup>

Commission Staff respectfully requests that the Commission Administrative Law Judge (ALJ) set January 10, 2023 as the deadline for any motion to intervene in this proceeding. Because the Commission sets ERCOT wholesale transmission service charges each year, interested parties are familiar with the nature, scope, and procedures relating to this docket.

---

<sup>1</sup> Public Utility Regulatory Act, Tex. Util. Code Ann. §§ 11.001-66.016.

<sup>2</sup> *Commission Staff's Petition to Set 2023 Wholesale Transmission Service Charges for the Electric Reliability Council of Texas, Inc.*, Docket No. 54507 (Dec. 20, 2022).

## II. PROPOSED PROCEDURAL SCHEDULE

In prior proceedings, once ERCOT filed the 4CP data, Commission Staff developed the transmission charge matrix and distributed it for informal feedback prior to filing a proposed matrix. After Commission Staff filed the proposed matrix, there was an additional period for formal comments followed by Commission Staff's filing of a proposed final matrix. Some previous proceedings have been delayed for lengthy periods due to concerns about the accuracy of the 4CP data and changes in the load aggregation schedule. In order to address these possibilities, Commission Staff has developed the following proposed procedural schedule. Commission Staff respectfully requests that this proposed procedural schedule be adopted:

<b>Event:</b>	<b>Deadline:</b>
ERCOT 4CP data filed	January 8, 2024
Deadline to intervene	January 31, 2024
Deadline for submitting any changes to the load aggregation used in Docket No. 54507	February 7, 2024
Deadline for intervenors to file objections and request delay in the proceeding based upon alleged errors in the 4CP data filed by ERCOT and any proposed changes to the load aggregation used in Docket No. 54507	February 14, 2024
<b><i>If no intervenor objections based upon alleged errors in the 4CP data filed by ERCOT and any proposed changes to the load aggregation used in Docket No. 54507:</i></b>	
Commission Staff files draft transmission charge matrix	February 21, 2024
Comments on Commission Staff's draft transmission charge matrix due	February 28, 2024
Reply comments on Commission Staff's draft transmission charge matrix due	March 6, 2024
Commission Staff files final transmission charge matrix	March 13, 2024
<b><i>If material objections to the 4CP data or proposed changes to the load aggregation used in Docket No. 54507 are raised, an alternative procedural should be applied as follows:</i></b>	
Prehearing conference held to discuss schedule	February 26, 2024

ERCOT files new 4CP data	To be determined at prehearing conference
Commission Staff files draft transmission charge matrix	One week after ERCOT filing
Initial comments on Commission Staff's draft transmission charge matrix due	One week after Commission Staff files draft transmission matrix
Reply comments on Commission Staff's draft transmission charge matrix due	Two weeks after Commission Staff files draft matrix
Commission Staff files final transmission charge matrix	One week after reply comments filed

The proposed schedule requires the parties to address two matters at an early stage of the proceeding. First, parties must identify any changes in the load aggregation used in Docket No. 54507, the 2023 matrix proceeding. A copy of that load aggregation is attached to this pleading as Attachment A. Second, the schedule requires that by February 14, 2023, interested parties must identify any objections to the 4CP data filed by ERCOT and any proposed changes to the load aggregation used in Docket No. 54507 so that the ALJ and parties know whether this matter will require a lengthier schedule. If no objections are filed, Commission Staff can process a draft matrix for comment by February 21, 2024, and a proposed final matrix by March 13, 2024. If objections to the 4CP and a request for hearing are filed, Commission Staff requests that the ALJ conduct a prehearing conference on February 26, 2024, during which the ALJ may get input from the parties and set the procedural schedule accordingly.

### III. CONCLUSION

For the reasons stated above, Commission Staff respectfully requests that the proposed procedural schedule be adopted.

Dated: December 21, 2023

Respectfully submitted,
